

**Empower people throughout your organization with the right tools to transform challenges into opportunities.**

We believe that any company's most unique and important asset is its people. People are responsible for driving successful business outcomes. We believe that software is the one technology investment that can significantly amplify people's impact and enable them to achieve these business outcomes. And we think that Microsoft software is the best software to do this, because it is innovative and evolves to meet future needs, is familiar and easy to use, integrates easily, and is widely used and supported. **Bet on people, bet on software, bet on Microsoft.**

We at Magus have a wealth of experience in enterprise (PPM/Portals/BI) solutions. We are recognized for our knowledge and experience on enterprise business systems. We are committed to deliver world-class enterprise-level solutions with the benefits of an on-site staff and the economics of off shoring. Magus has top-notch program management team, deep technology and architecture capability, next-generation delivery capabilities, and the technology tools needed to execute large-scale programs.

We are constantly finding innovative ways to blend people, process and technologies to deliver bottom-line benefits to our customers. We measure our contributions through increased customer satisfaction, client retention rates and value delivered.

**Project Management Services:** Implementing, optimizing and managing your PPM platform is a daunting task. Whether you use an on-premises MS Project Server platform, or Project Online, MAGUS can help ensure it's operating at peak effectiveness. We're PPM specialists with 15+ years of experience, and we would be happy to provide the technical, transformational and managed services you need to get the most out of your PPM platform investment.

We can help you setup, operate & maintain Corporate Project Office (CPO), Project Management Office (PMO) and Support Project Office (SPO) in accordance with popular standards such as CMMi, PMBOK, PRINCE, Agile, Six-Sigma, Stage Gate and TOC-CCPM.

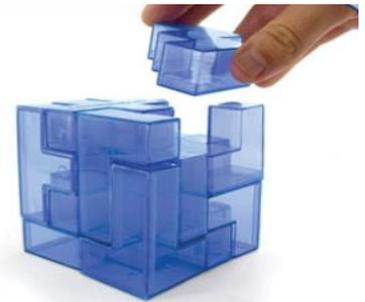

**O365 Intranet Portal:** Our complete, intuitive intranet platform PIKU based on O365 helps you improve employee engagement, express your culture, and make communication happen. That's what extraordinary workplaces are all about.

PIKU make it easy for everyone in your organization to find people and expertise. It has a strong social capability viz News, Recognition, Events, Photos and KPIs in turn making it an engaging platform to bring your workplace purpose, values, and character to life. It helps to recognize contributions and celebrate success. Aim is to create a dynamic place where all your employees come to connect and participate. PIKU for teams is an effective digital workplace experience that connects each employee to the people, information, and the applications they use every day.

PIKU iOS and Android mobile apps deliver a full mobile intranet that's seamless with desktop experience.

**Power BI:** Magus BI Centre of Excellence provides you with a complete and cost-effective, integrated business intelligence service that massively simplify the BI process. Our solutions are designed to help organizations like yours to transform data and informational assets into insightful analysis that drives performance forward.

We have developed content pack using Power BI for Portfolio Dashboard (Project Online), Project Dashboard (Project Online), Auto Dealer Insights, Finance Planning & Analysis, Broker Performance Management and Sales & Inventory Analysis.

1. Project Online
2. O365 & SharePoint
3. Power-BI
