

Magus Learning Solutions

Learning that Powers Performance

Organizations that succeed today realize that learning must never stop - that it is essential to place training and development at the heart of the organization, in order to maximize opportunities and succeed in our rapidly changing environment. We recognize and value this fluidity, continually reviewing and updating our training programs to meet the unprecedented challenges being set in today's marketplace.

Learning is not an option - it's a business necessity! We all must learn to adapt, adjust, move quickly in changing markets, apply new rules and integrate new technologies. Nothing is standing still - and you can't afford to, either.

Magus has earned a reputation as a leader in corporate learning. The contents of our curriculum and the experience of our instructors and consultants are unsurpassed. We continue to be at the forefront of innovative learning and methods and techniques. We offer a wide variety of delivery mechanisms to ensure that our clients learning experiences are a perfect fit for their needs and business objectives.

The way we learn is changing

The demands placed on businesses and professionals are growing exponentially every day? We need up-to-the-minute information that is efficient, cost effective, convenient and engaging. We offer public workshops at all the four metros, on-site workshops, self-paced e-learning courses, and computer simulation learning programs.

Public Workshops: Each year we schedule at least a dozen live instructor-led courses and workshops in major cities (Mumbai, Pune, Ahmedabad, Delhi, and Chennai). This offers you a convenient way to participate in classes that expose you to diverse representation of industries and real-life experiences.

On-site Workshops: We work closely with clients to develop learning solutions that are specifically designed to meet precise business objectives and cultural needs. These programs are scheduled at company locations (on-site) or at specific venues requested by the client. In most cases, such courses are custom-tailored or custom-developed from scratch to squarely address client objectives.

Self-Paced Learning: We offer a wide variety of training courses that give you extra ordinary content and the convenience of learning at your own pace. These e-learning courses are not only cost effective way to bring expertise to your employee's, they are also a valuable means for reinforcing your existing training efforts and materials.

The results you want

The knowledge, skills, tools and techniques you need to move forward in these challenging times will be found in our corporate training services. We at Magus are committed to helping our clients achieve continuous improvement in quality, profitability and productivity, the hallmark of business leaders in today's global marketplace.

The company you keep

More than 6000+ professionals from small, medium, and large organizations have attended Magus courses since we started offering corporate training ten years ago. Our clients include Tata Group Companies, Godrej Group Companies, Mahindra Group Companies, Bajaj Group Companies, Kirloskar Group Companies, Citi Group Companies, L&T, Bharat Forge, Suzlon, Cummins, HCC, NSE.IT, Persistent, BMC, and PTC to name a few.

We are constantly finding innovative ways to blend people, process and technologies to deliver bottom-line benefits to our customers. We measure our contributions through increased customer satisfaction, client retention rates and value delivered.
